Silent Drive EV - 100% Plug in Power

Introducing the DFM USA Silent Drive EV Technology!

Reduce training costs and time. The DFM USA line of EVs with Silent Drive technology is simple and easy to operate. Operators are presented with simple and familiar controls. Direction is controlled with a simple lever selector with forward, park, and reverse positions. Speed is controlled with a simple accelerator pedal. Operator feedback is provided through an intuitive LCD screen

Reduce maintenance costs by 90%. The DFM USA line of EVs with Silent Drive technology can reduce your maintenance costs by 90%. Each of our units come installed with the best available American technology. There are far fewer moving parts when compared to internal combustion vehicles. Ask your local sales & service representative or call DFM USA to find out more!

Tax Credits: DFM USA EVs are fully compliant and certified to take advantage of all available federal & state tax credits. Let the government put money back on your bottom line! Visit us on the web to find out more about tax credits in your state, or ask your local sales & service representative.

Reduce your fuel bill by 100% and do your part to save the environment. DFM USA EVs with Silent Drive technology are powered with 100% clean electric power. Simply plug into any 110V outlet at night and you are ready to go for the following day's work.

Note: All dimensions listed in inches & pounds. (LxWxH)

2 Door Truck

The 2-Door truck chassis is a combination of utility and economy. The 2-Door cab has ample legroom and adjustable seating to accommodate a wide variety of operators. The long box with fold down sides allows you to easily load and unload the large cargo area.

Passengers: 2
Dimensions: 157x62x72
Bed Dimensions: 90x59x13
Bed Type: Long Box
Wheel Base: 99
Curb Weight: 1,980 lbs
Load Capacity: 1,020 lbs
Gross Weight: 3,000 lbs

4 Door Short Box Truck

The 4-Door truck chassis features front bucket seats and second row seating with room for up to 3 adults. Featuring full size rear doors for complete access to the folding rear bench seat. The short pickup style bed gives you the maneuverability of a 2-Door while still providing plenty of cargo area.

Passengers: up to 5
Dimensions: 157x62x73
Bed Dimensions: 54x55x17
Bed Type: Short Box
Wheel Base: 99
Curb Weight: 2,120 lbs
Load Capacity: 875 lbs
Gross Weight: 3,000 lbs

4 Door Long Box Truck

The 4-Door Long Box chassis combines the passenger room of a 4-Door with the utility and cargo room of a 2-Door truck. The 4-Door Long Box is a no-compromise combination of comfort, utility & function.

Passengers: up to 5
Dimensions: 193x62x72
Bed Dimensions: 90x59x13
Bed Type: Long Box
Wheel Base: 99
Curb Weight: 2,120 lbs
Load Capacity: 875 lbs
Gross Weight: 3,000 lbs

Passenger Van

The Passenger Van chassis comes with front bucket seats and second row bench seating. Twin sliding doors give access to the second row bench seat. Leave the back for cargo or add an optional 3rd row bench seat. With room for up to 7 passengers, the passenger van is the ultimate people hauler.

Passengers: up to 7
Dimensions: 150x62x76
Bed Dimensions: n/a
Cargo Type: Bench Seat
Wheel Base: 99
Curb Weight: 2,450 lbs
Load Capacity: 550 lbs
Gross Weight: 3,000 lbs

Cargo Van

The cargo van was built with utility and function in mind. Front bucket seating provides comfortable room for 2 passengers. The twin sliding doors and rear hatch give easy access to the large cargo area.

Passengers: 2
Dimensions: 150x62x73
Bed Dimensions: 79x51x51
Cargo Type: Cargo
Wheel Base: 99
Curb Weight: 2,160 lbs
Load Capacity: 840 lbs
Gross Weight: 3,000 lbs
